

TOWN OF WATERVILLE

TO THE TAXPAYERS ---

The financial statement of January 31, 1921, a copy of which went to each taxpayer, was the result of a desire on the part of your present officers to inform you as to Town affairs. It did not at that time, nor does it now, seem necessary to go to the expense of a printed annual report for so small a business.

We are desirous however of calling your attention to the fact that in the winter of 1919-20 there was a movement in the Town of Thornton for the discontinuance of the River Road from the so called Six Mile (Iron) Bridge to Campton. At a joint meeting of the officers of the Town of Campton, Thornton and Waterville, an agreement was made and approved by The Superior Court of Grafton County, wherein Waterville accepted responsibility for a portion of the road in question, from the town line near Six Mile Bridge to the Sandwich Notch Road. This added to our road mileage somewhat more than one and one half miles of road, and three bridges. Considering the increasingly heavy traffic over country roads and bridges, and the fact that we are responsible for road conditions and damages in another town, we feel that the bridges on this road mentioned above, should be rebuilt of permanent steel and cement construction according to State requirements as soon as possible, and we hope you will authorize the appropriation of some money for this purpose at the coming Town Meeting, March 14th, 1922.

It will interest you to know that the State Tax of \$712.00 in 1918 reached the imposing figure of \$4343.00 in 1921.

Attached herewith is the Financial Statement for the year ending January 31, 1922.
